

Andruss-Peskin Corporation

Manufacturer's Representative for leading suppliers of Sensors & Instrumentation. Providing Professional Sales Engineering Service in New England & Upstate New York since 1959

41 Westech Drive Tyngsboro, MA 01879
Telephone: (508) 351-6200
Fax: (508) 351-6207

Manufacturers Represented

Signal Conditioners, Signal Isolators, Process Transmitters

Flow Measurements & Control Solutions, Mechanical, Electronic & Calibration Services.

Digital Pressure & Vacuum Gauges, Pressure & Temperature Transmitters, Pressure Alarms & Switches.

Extrusion Pressure Transducers & Instrumentation, Plastics Melt Flow Indexers, Capillary Rheometers, Polymer Evaluation Products

Feed Screws, Barrels, Non-return Valves

Machine Controls for Plastics Injection Molding, Blow Molding and Extrusion

Strain Gages & Installation Accessories, Strain Indicators & Strain Gage Signal Conditioners, Strain Gage Data Acquisition Systems, Photoelastic Full-Field Stress Analysis Equipment

Intelligent Monitoring & Control, Leader in Loop Powered Indication, Loop & Line Powered Explosion Proof Displays with Worldwide Approvals

Custom Strain Gage Installations, Strain Gage Field Work & DAQ, Custom Force, Torque & Load Sensors

Load Cells, Force Sensing Clevis Pins, Bolts, Studs & Tension Links

Instrumentation for the measurement and analysis of sound & vibration

Induction heating solutions for almost any application. Systems are available from 1 kW to 500 kW with various frequency options.

Innovative and accurate industry-leading weighing and force measurement solutions

Leading Innovation in Vibration testing, Condition Monitoring and Data Acquisition, Dynamic Signal Analyzers, Vibration Test Controllers, Machine Monitoring Devices.

Equitech's technology monitors and measures chemical concentration, color, turbidity & haze, and coating thickness.

Precision Dial Pressure Gages, Digital Pressure Indicators & Calibrators, Analog & Digital Pressure Transducers.

Laser, Capacitive and Eddy-Current Non-Contact displacement Sensors, Infrared Temperature Sensors, Color Detection Sensors & Fiber Optic Technology, Draw-Wire and LVDT Displacement Sensors

Integrated Conditioning & Control Systems, Turnkey Acquisition Systems, Signal Conditioning Systems, Transient Recording Systems, Ruggedized Ethernet Data Acquisition Systems

Industrial RTD & Thermocouple Sensors, Transmitters, Thermowells, Custom O.E.M. Thermocouples & RTD Probes

Vibration test equipment, Environmental Test Chambers

Strain gage based sensors, Load cells
