

Andruss-Peskin Corporation

Manufacturer's Representative for leading suppliers of Sensors & Instrumentation. Providing Professional Sales Engineering Service in New England & Upstate New York since 1959

One Tara Boulevard, Suite 200, Nashua, NH 03062
Telephone: (508) 351-6200
Fax: (508) 351-6207
sales@a-pcorp.com

Manufacturers Represented

Signal Conditioners, Signal Isolators, Process Transmitters

Flow Measurements & Control Solutions, Mechanical, Electronic & Calibration Services.

Digital Pressure & Vacuum Gauges, Pressure & Temperature Transmitters, Pressure Alarms & Switches.

Piezo-Resistive Pressure Sensors and Test and Calibration Instruments

Equitech's technology monitors and measures chemical concentration, color, turbidity & haze, and coating thickness.

Precision Dial Pressure Gages, Digital Pressure Indicators & Calibrators, Analog & Digital Pressure Transducers.

Machine Controls for Plastics Injection Molding, Blow Molding and Extrusion

Strain Gages & Installation Accessories, Strain Indicators & Strain Gage Signal Conditioners, Strain Gage Data Acquisition Systems, Photoelastic Full-Field Stress Analysis Equipment

Intelligent Monitoring & Control, Leader in Loop Powered Indication, Loop & Line Powered Explosion Proof Displays with Worldwide Approvals

Custom Strain Gage Installations, Strain Gage Field Work & DAQ, Custom Force, Torque & Load Sensors

Strain gage based sensors, Load cells

Induction heating solutions for almost any application. Systems are available from 1 kW to 500 kW with various frequency options.

Innovative and accurate industry-leading weighing and force measurement solutions

Leading Innovation in Vibration testing, Condition Monitoring and Data Acquisition, Dynamic Signal Analyzers, Vibration Test Controllers, Machine Monitoring Devices.

Extrusion Pressure Transducers & Instrumentation, Plastics Melt Flow Indexers, Capillary Rheometers, Polymer Evaluation Products

Feed Screws, Barrels, Non-return Valves

Hi-Techniques provides High-Performance DAQ Systems. The company specializes in transient recorders, data acquisition systems, and high-resolution digital oscilloscope equipment.

Laser, Capacitive and Eddy-Current Non-Contact displacement Sensors, Infrared Temperature Sensors, Color Detection Sensors & Fiber Optic Technology, Draw-Wire and LVDT Displacement Sensors

Integrated Conditioning & Control Systems, Turnkey Acquisition Systems, Signal Conditioning Systems, Transient Recording Systems, Ruggedized Ethernet Data Acquisition Systems

Industrial RTD & Thermocouple Sensors, Transmitters, Thermowells, Custom O.E.M. Thermocouples & RTD Probes

Vibration test equipment, Environmental Test Chambers

Instrumentation for the measurement and analysis of sound & vibration

* Company is not represented by Andruss-Peskin Corp. in Upstate New York.
